Dear Dr. Seidell:

Enclosed herewith I am returning to you the Microfilm Viewer which you were good enough to send me sometime ago.

Upon receipt of your communication dated 4 May 1951, I took steps to determine from the people in my Agency, to whom your viewer had been sent for approval, if there should be any orders placed for purchase. They have informed me that I will be notified of their findings and decision after a survey is completed.

Accordingly, I will get in touch with you again as soon as I obtain this additional information.

Very truly yours,
